Xtend Voice Logger

A multi-channel call logging tool that implements a simple installation and configuration interface to record audio directed from analog and digital lines. Real-time customer related conversations are recorded from trunk as well as extension lines that can be monitored/reviewed at any time by senior personnel in the organisation for performance assessment and quality assurance.

Analog Voice Logger

- USB-Product with 1/24/8/12/16 Ports
- Supports 1 to 128 Ports per System

Digital Voice Logger

- Records ISDN PRI, R2MF (NR2), Digital PBX Ext.
- Uses Telephony Cards

Browser Interface

Xtend Voice Logger implements a browser-based interface that multiple users can access locally or remotely to monitor the calls. The secured browser application with advanced data protection detects unauthorised tampering of audio data. The browser interface supports comprehensive call analysing features to monitor and evaluate the logged call conversations.
