

MORE GAIN WITH THE BEST BARGAIN

The passion to offer only the best solutions,
beckoned Falcon to bring to you the all-new Digital Storage Oscilloscope (DSO) at an unprecedented price.

Loaded with a host of features, Falcon DSO is unique in its class.

It comes with a bandwidth capacity of 25Mhz at a sampling rate of 100Ms/s on a 7.8 inch screen with colour display. Furthermore, this easy-to-handle, dual channel DSO with automatic measurement & waveform maths with storage facility makes your operations very simple.

With so much to offer at such a price one has to agree that,

Falcon undoubtedly has created a new theory, "All Gains Without Pains."

*(Dealers & distributors welcome. Required: Experienced people
for handling the sales & service of Test & Measuring Instruments.)*
