Smart Card

Beyond Defence Electronics....

Having contributed to Defence Electronics for over 5 decades, BEL has moved beyond defence to touch the lives of many more Indians, to bring them the fruits of technology. Through products like the Simputer (the common man's computer), the Electronic Voting Machine, set-top boxes, solar powered traffic signals, solar lighting solutions for rural electrification, X-ray tubes, passive vacuum devices, passive components, semiconductor devices, Smart Cards and so much more. Products designed in India to take on the world.
