> SMALLEST, LOW POWER, COST EFFECTIVE QUAD BAND GSM/GPRS MODULE SOLUTION WITH EXTENDED TEMPERATURE RANGE.

- Extremely small Form Factor; HiLo: 27x27x3.6mm; HiLoNC: 24x24x2.5mm.
- Very low power consumption: 1.25mA in stand-by mode
- Full Quad band frequency, 850, 900, 1800, 1900MHz
- UART interfaces, 5 GPIO +1 ADC available, built in TCP/IP, FTP stack.
- Support multiplexed serial interface, analog audio interfaces, and HR, EFR, FR, AMR voice codecs.
- Extended operational temperature range from -40°C to +85°C.
- SIM lock, Device lock feature supported
- SIM 3V & 1.8V supported

TYPICAL APPLICATIONS INCLUDE

- Automatic Metering management
- Automotive
- Tracking system and remote management
- Medical and Health Monitoring
- Alarm and Security system

> MODULE SOLUTIONS THAT SIMPLIFY YOUR DESIGNS AND IMPROVE YOUR TIME TO MARKET.

- Compact, Security, integrated solutions
- Built in web server capability
- Support TCP/IP, UDP/IP, ICMP,SNMP,TFTP, Telnet, HTTP, Email alert.
- Featured Ethernet to WiFi bridging, Soft AP Roaming
- Enterprise-grade security in Lantronix Evolution OS products.
- Enable device with Ethernet ability as a serial device in PC environments with Com Port Redirector™ Software.

TYPICAL APPLICATIONS INCLUDE

- Home Automation and Security system
- Ethernet Wired / Wireless EFTPOS
- Metering, Remote Monitoring and Data Acquisition
- Medical and Health Monitoring
- AV / Digital Signage
