

POWERLINEPLUS

100%DC-DC Power at 100°C. No Derating.

For Military COTS, Aerospace, Telecom & High-End Industrial Controls Applications.

- From -45°C up to 100°C Full Load Operating Temperature
- Built-in EN55022/FCC Class B EMC Filter
- Up to 3kVDC Isolation
- Compact Size, Standard Pinouts
- Efficiency above 90%
- Single & Dual Outputs
- 2:1 and 4:1 Input Voltage Ranges
- 20W, 30W, 40W or 50W DC-DC Power Packages

The POWERLINE PLUS uses ICE Technology. A combination of techniques to minimise internal heat dissipation and maximise the heat transfer to ambient to create a new converter series which offers high end performance at a price which is significantly lower than conventional specialist converters. RECOM - Green high-efficiency power solutions. **SAVE ENERGY. NOW.**
