

WAYNE KERR PRECISION IMPEDANCE ANALYZERS

A choice of 7 different frequency ranges to 120MHz

Minimum frequency for all models is 20 Hz

The 6500B range of Precision Impedance Analyzers give users a comprehensive set of functions for characterizations / research / analysis. The colour touch screen allows easy manipulation of the graphical results and a basic accuracy of 0.05% enables measurements to be made with confidence.

6500B Series has two modes of operation :

1. Meter Mode
2. Graphical Sweep/ Analysis Mode

Special features of 6500B Series Impedance Analyzers are :

- Precise high frequency impedance measurements
- Characterize up to 120 MHz
- Seven models with maximum frequencies from 5MHz to 120MHz
- Fast measurement speed
- 0.05% basic measurement accuracy
- Measurement parameters : C, L, R, X, G, B, D, Q, Z, Y, $\emptyset$ etc.
- Comprehensive measurement functions
- Easy to use with large TFT touch screen
- Traditional LCR Meter mode for single and repetitive measurements
- Fully programmable over GPIB
- Keyboard and mouse control option
- Temperature controlled furnaces for use with sample Holder and Suitable S/w for Z plot, Temp Vs. Parameters plot. etc. for use in R&D / Material research applications

Wayne Kerr Electronics has been designing & manufacturing test and measuring equipment for the research purposes / electrical & electronics industry for more than 60 years. These 6500B Series Impedance Analyzers are build on our knowledge and expertise gained during this period.

MICROWAVE EQUIPMENTS & TEST - BENCHES

Covering Frequency Range upto 110GHz

Our Products

- Microwave & MillimeterWave Components, Microwave trainer, Microwave Power meter, RF trainer, GPS trainer, Antenna Trainer, MIC Trainer, Antenna Trainer with Micro processor based turn table, coaxial line bench etc.

Products Application

- Microwave Components and instruments used in Engineering College • DOT • Defence • Atomic Energy • Deptt. of Space
- Communication Systems • Mobile Communication
- R&D labs • Thin-films measurements etc.

New Launch
Low Cost
Microwave
Power Meter
1 Mhz to 12.4 Ghz

Estd: 1974
