

The company also does not intend to hit the global market any time soon, as, according to the company, it will scout for options to raise funds needed for the investment.

Sony Ericsson to close Chennai R&D unit

As part of its restructuring programme, Sony Ericsson will shut down its R&D centre in Chennai, which employs around 60 engineers. The company has decided to phase out activities at some of its locations worldwide and plans to reduce its workforce by 2000 employees. The company expects to complete the restructuring by the middle of 2010.

Sony Ericsson had opened its Chennai unit for entry-level mobile phones in 2007. However, since then, it continued to be unprofitable for a number of quarters, besides being severely impacted by the global financial crisis. The company has now decided to focus on the mid-end to higher-end phones to increase its profitability. Sony Ericsson says it remains committed to the Indian market, and the move will not impact its marketing and sales operations in India.

BSNL to buy mobile equipment from Huawei

Bharat Sanchar Nigam Ltd (BSNL) has placed an advance purchase order with China-based Huawei to buy mobile equipment for 20 million GSM lines in the south zone. In the first phase, Huawei has been given a contract for 8 million 2G lines in the south zone.

The Department of Telecommunications has ordered that all Huawei's network equipment be tested before they are put to use. Earlier, the government had decided not to allow Chinese companies to supply equipment in areas adjacent to Pakistan, Nepal, Bangladesh or Myanmar.

Sony India eyes 20% share in notebook market

Sony India has announced plans to capture 20 per cent of the consumer notebook market by combining product design, channel expansion and
