

Total Solution of Test & Measurement

World-Class Quality, Affordable Price, Wide-Range Selection

Started in 1975, GW Instek designs, manufactures and markets data acquisition and control instruments for both device and production/assembly testing.

GW Instek portfolio includes over 150 products across five key lines. Just like our product range, the industries we service are as diverse as they are specialized. Together, our experience and expertise allow us to deliver high-performance test solutions that address the unique requirements of each client. Solutions that are backed by comprehensive after-sales support, warranty and calibration services, with one of the industry's best price vs. performance ratios. Solutions that are " **Made to Measure.** "

Oscilloscopes

Spectrum Analyzers

Signal Sources

Power Supplies

Basic T & M Instruments

Channel Partner & Distributor in India
