

Professional Test & Measuring Instruments

Innovative

Feature Packed

Cost Effective

350 MHz 4 Channel Mixed Signal Oscilloscope MS03524

- Sampling Rate : Real Time -40 GS/s, Realtime: 800GS/s
- 320 P/s memory , memory Zoom upto 1000,000:1
- MS0 with 16 Logic Channels
- FFT for spectral Analyse
- 6 digit counter, Autotest, Automeasurement, Formula Editor
- 6.3" TFT VGA Display, DVI output
- 3 x USB for mass storage, printer & remote control, optional IEEE-488 or Ethernet / USB

New

LCR Meter MS0019

- Comprehensive range of functions, L+Q, D+Q, R+Q, [Z]+Q, R+X, G+Q, L+AL etc.
- Measurement accuracy 0.1%
- Fast Frequencies standard 100 Hz to 25 MHz in 11 steps, and an additional user defined from 500 possible frequencies between 100Hz to 250Hz
- Simultaneously two measured Parameters displayed
- Bin function for component sorting
- Transformer Parameters measurement

4 1/2 Digit Programmable DMM MS0016

- Microprocessor based design
- True RMS
- Electronic Protection against wrong connection
- High Resolution 10µV, 10uA, 10mA or 1 Hz
- dR Measurement
- 10 MHz Frequency Counter
- RS-232 Built-In-Interface, USB optional
- Remote control & data logging software

Digital Oscilloscopes Meters SMH 20/40/80

- 20MHz, 40MHz, 80MHz Bandwidth
- Digital Oscilloscope, True RMS Multimeter & Data logger in one
- Handheld-easy to carry in field
- Long Memory Length 128KByte
- USB Flash drive for unlimited storage
- 22 Automatic measurements & vector measurements
- Auxiliary parameter measurements like temperature, current, humidity & pressure
- Data logger mode - record data for DMM parameter

Other Products

Analogue Oscilloscopes

D80a

Spectrum Analyzers

EMI / EMC Pre Compliance Setup

Function Generators

Frequency Counters

Power Supplies
