24.5MP DIGITAL CAMERA

NIKON'S D3X CAMERA WITH 24.5MP RESOLUTION IS GOOD FOR PROFESSIONAL PHOTOGRAPHY

Price: Rs 524,950

Nikon India has launched a digital SLR camera featuring 24.5-megapixel resolution and low noise. Named D3X, the camera provides professional photographers with commercial-quality images in a familiar D-SLR form factor.

Behind the superb performance

of the D3X is its FX-format, 24.5-megapixel (6048×4032) CMOS sensor. This sensor provides commercial, high fashion, fine art and landscape photographers with the extreme resolution, dynamic range, colour depth, detail and sharpness that the clients demand. Whether creating catalogues, magazine covers, billboards or gallery prints, the large 5.94-micron pixel size and high signal-to-noise ratio produce vibrant images while reducing lost highlights and shadows, and ensuring smoother tone reproduction with minimised noise.

With full-resolution shooting speeds of up to five frames-per-second, and 14-bit files that when processed are approximately 138 MB, the D3X offers photographic artists good performance and versatility for demanding assignments in the studio or on location.

STYLISH NETBOOK

WATCH MULTIMEDIA WITHOUT DISTORTION ON BENQ'S JOYBOOK LITE

Here comes another Netbook. Launched by BenQ, the Joybook Lite U101 claims to be a perfect substitute for your laptop. It has a 25.7cm, 16:9 wide LED backlight screen which shows multimedia content without distortion or black bars. Weighing only 1.1 kg, it comes with 160GB storage capacity and a user-friendly keyboard that is 90 per cent of the size of keyboards in generic notebooks—facilitating easier typing and a longer battery lifespan of up to 7.2 hours.

Stylish and appealing, the Joybook Lite U101 has been designed with

Price: Rs 28,000

faceplates patterned with emoticons on a scratch-free cover. In addition, it features built-in speakers and a 1.3-megapixel webcam, making it a great multimedia device.

DESIGNER NETBOOK

ASUS Eee PC S101 ADDS STYLE TO COMPUTING ON THE GO

Price: Rs 27,990 (excluding taxes)

ASUS has launched an exquisitely designed netbook for fashion-conscious individuals. The Eee PC S101 builds upon the form factor, ergonomics and features of its predecessors but boasts of a completely revamped exterior in three gorgeous colours—brown, champagne or graphite—accentuated with details such as premium infusion finishes and crystal-adorned hinges. Weighing a mere 1 kg and svelter than most fashion magazines at just 1.8 cm, it enables you to carry yourself with effortless grace.

The Eee PC S101 is equally impressive in terms of features. It supports Wi-Fi 802.11n, enabling high-speed Internet access virtually anywhere. Bluetooth V2.0 ensures fast and convenient connectivity with a vast range of Bluetooth-enabled devices.

The Eee PC S101 comes with an encrypted 20GB Internet storage facility, allowing you to store and subsequently access your important documents and media securely whenever, wherever. It is available in 16GB solidstate drive and 160GB hard disk drive models.
