CORDLESS DESKTOP

LOGITECH'S S520 KEYBOARD-AND-MOUSE COMBINATION IS A PERFECT COMPANION FOR FLAT-SCREEN MONITORS

Price: Rs 4275

Logitech has launched a keyboard-and-mouse combination that matches various computer setups. With its matte-black and grey palette, the Cordless Desktop S520 has rounded edges and curved palm rest. In addition,

the cordless laser mouse delivers precision and smoother tracking, compared to optical mice.

The compact design of the Cordless Desktop S520 makes it a perfect companion for flat-screen monitors, completing your stylish setup while offering advanced features such as programmable keys, a high-performance cordless laser mouse and extended battery life.

The battery life is up to eight months for the mouse and 15 months for the keyboard. The device also features one-touch access to Word, Excel and Internet browser. Four additional programmable F-keys let you customise your keyboard the way you want, while a full set of media and volume controls help you manage your photos and music.

'MADE FOR INDIA' CAR STEREO

PIONEER'S DEH-4190SD CAR STEREO SYSTEM HAS A PROTECTIVE DUST COVER AND CAN CONNECT TO YOUR iPod AND iPhone

A good example of high-quality, seamless entertainment on the move is Pioneer's DEH-4190SD car stereo system. It has a built-in slot for an SD memory card of up to 16 GB containing MP3, WMA, AAC and WAV music files. In other words, for average 4MB-sized MP3 songs, the DEH-4190SD can store up to 3840 songs or up to 256 hours of music. File-search and access are extra-quick, and song, artist, time and album information displays are very clear and user-friendly.

The system is claimed to be the first in the world to boast compatibility

with all CD formats (MP3, WMA, AAC and WAV), and connectivity with USB, SD card, AUX input, iPod and iPhone. It has a protective dust cover which is designed specially to act as a shield against dust particles from the environment.

Price: Rs 10,490

MULTIMEDIA MOBILE

THE HTC TOUCH HD FEATURES A 9.7CM WVGA DISPLAY, 5MP CAMERA WITH AUTO FOCUS, 3D USER INTERFACE AND 3.5MM HEADPHONE JACK

Watch movies, browse the Internet or even flip through photos in stunning clarity on your HTC Touch HD. The entertainment-focused Touch HD mobile handset integrates a 9.7cm wide-screen VGA (WVGA) display, a 3.5mm audio jack and a 5-megapixel camera with auto focus. The TouchFLO 3D user interface allows quick and intuitive access to the people, messages and content that are most important.

The 3.5mm headphone jack of the handset is compatible with a majority of headphones. The wide screen shows websites in full page, enabling great Web browsing experience in terms of page layout.
