**Big innovation,
small size.**

Minisens

FHS Current transducer

Minisens is taking miniaturization to the next level as it is a fully fledged current transducer for isolated current measurement including magnetic concentrators in an IC S08 size. This allows you to include all the functionalities you are looking for into the space that you have available.

- Non-contact current measurement with no insertion loss
- Isolation provider
- Attractive price
- Flexible design allows a wide range of current measurement from 2-70Arms
- +5V power supply
- Access to voltage reference
- Ratiometric or fixed gain and offset
- Standby mode pin
- Dedicated additional fat output for short circuit detection
- High performance gain and offset thermal drifts
