

Why is Agilent the fastest growing oscilloscope manufacturer?

Because we listen to you.

To build our scopes, Agilent carefully examines the challenges you face. Then we deliver products that solve your problems in imaginative ways. Like the multi-chip module that enables Infiniium's industry-leading signal integrity. And the ASIC that underlies Infiniium's patented MegaZoom deep memory giving you the industry's best signal visibility. You'll find innovations like these in each of our scopes — that's why more and more engineers are choosing Agilent over other scope brands.*

Agilent 20 MHz to >90 GHz real-time and sampling scopes

- Handhelds, portables, rack-mounts and benchtops
- 40+ application-specific software packages for exceptional insight
- Innovations that satisfy your toughest demands
