

"Somebody should make a low-cost function generator as capable as an Agilent."

You mean somebody like Agilent?

The most reliable function/arbitrary waveform generators in the world have always been Agilent. Now, for the first time, you can have that Agilent reliability at a low cost: the new Agilent 33210A function/arbitrary waveform generator. With all the modern LXI compliant I/O, productivity features, and ease-of-use of its older brothers, the 33210A expands your choice of function generators, each scaled perfectly to your needs.
