HIGH-SPEED GAMING WORKSTATIONS

THE HCL INFINITI CHALLENGER SERIES WORKSTATIONS BASED ON INTEL'S FASTEST CORE I7 PROCESSOR

Price: Rs 55,000 onwards

HCL's Infiniti Challenger series of workstations are ideal for multimedia tasks like image rendering and photo editing, gaming and animation. Based

on Intel's Core i7 quad-core processor, these apply processing power dynamically when needed the most, thus delivering super performance.

The processor's frequency can be dynamically increased, thus making it ideal for various applications like digital media creation and highly threaded games. In addition, the multi-core design includes Intel Smart Cache for rapid access to memory, with 8 MB of shared L3 cache for efficient data storage.

HD CAMCORDER WITH 7.6cm LCD

THE GENIUS G-SHOT HD55 RECORDS 30 FRAMES PER SECOND AT 1280x720 PIXELS

Genius, a brand from KYE Systems, has introduced a 5-megapixel camcorder, G-Shot HD55. This high-defi-

nition video camera records 30 frames per second at 1280x720 pixels and uses high-compression H.264 format. This allows the G-Shot HD55 to record still images and movies using less memory, which can be seen on high-resolution flat-panel TVs using the video cable. It also comes with a 2x digital zoom to enlarge pictures.

The G-Shot HD55 has a 7.6cm colour TFT LCD that is adjustable. You can capture still images of up to 8-megapixel resolution by software interpolation. The camcorder comes with a dual battery compartment—Li-ion battery or four cells.

Price: Rs 13,285

AFFORDABLE MULTIMEDIA PHONE

MOTOROLA'S MOTOYUVA W396 FEATURING AN MP3 PLAYER WITH PLAYLIST OPTION AND A VGA CAMERA

The Motorola MOTOYUVA W396 allows you to create playlists and organise songs by genre, artist or album. Record excerpts of songs from its FM radio along with radio data system functionality, which shows the name of the artist, the song and the genre of music playing. In addition, you can set an FM alarm, and listen to FM radio via stereo earphones or speakerphone.

Store your favourite songs on optional removable microSD cards with up to 2 GB of expandable memory. The phone offers a storage capacity of 1000 contacts and 750 SMS. It comes with a VGA camera with 4x zoom and auto-save option.

You can use the phone even without inserting a SIM card. There is no need to search for a SIM card to use the camera, MP3 player or FM radio. The MOTOYUVA W396 also boasts of a bright, 128x160, 65,000-pixel TFT display.
