## STYLISH CDMA PHONES

**SAMSUNG'S MPOWER SERIES PHONES SEAMLESSLY SHIFT BETWEEN ANY OF THE THREE CDMA OPERATORS**

Samsung's Mpower series of CDMA phones can interoperate on Reliance Mobile, Tata Indicom and Virgin Mobile. These adapt to the network settings of the respective service provider on change of the SIM card.

The MPower 569 and MPower 309 support high-speed wireless data of up to 153 kbps, allowing for fast Internet browsing on the phone. Both the phones are Bluetooth-enabled with stereo headset function and support video recording and MMS.

The MPower 569 comes with a 2MP camera, FM recording on Micro SD card, expandable memory up to 4 GB, equaliser and surround sound, 5.3cm colour LCD and document viewer.

The MPower 309 comes with a 1.3MP camera, MicroSD card support up to 4GB, and 4.8cm TFT screen.

**Price:**  
MPower 569: Rs 9900  
MPower 309: Rs 6300

## MULTIMEDIA NOTEBOOK

**SAHARA NB846137-M002 NOTEBOOK IS PERFECT FOR HIGH-DEFINITION MULTIMEDIA AND GAMING**

Sahara Computers has launched a notebook PC based on Intel's Montevina platform. Powered by Intel

Centrino 2 technology and Core 2 Duo processor (Penryn), the NB846137-M002 combines simplicity, technology and sophistication.

This feature-rich notebook with piano finish and slick looks comes loaded with Linux but is certified on all operating systems. It also has Mobile Intel GM 45 Express chipset, 2GB 667MHz DDR2 memory and 250GB 5400-rpm SATA hard drive. Its 39cm WXGA display screen is bright and sharp. Integrated wireless LAN, super multi-DVD writer, e-SATA/USB combo

port, HDMI and replicator ports, card reader and 2MP Web camera add value to the notebook.

## AFFORDABLE NETBOOK

**ACER'S ASPIRE ONE NETBOOK COMES BUNDLED WITH WINDOWS XP**

Acer has launched Aspire One that lets you access the Internet and perform basic computing tasks on-the-move. Interestingly, the netbook is available for just Rs 17,499.

The device features an LCD of 22.6 cm size with weight less than one kilogram. The Aspire One also offers numerous connectivity possibilities, an easy-to-use software application suite and battery life of up to three hours. Moreover, it tries to offer you ease of use with an ergonomically designed keyboard which is 89 per cent of the full size.

The Aspire One comes powered with the Intel Atom processor, Linpus Linux Lite or Windows XP Home. It has

1 GB of memory installed with up to 160 GB of hard disk drive.

**Price: Rs 17,499**
