

Some Popular Camera Phones

Company	LG	LG	LG	Motorola	Nokia	Nokia	Nokia
Brand/type	KU990 (Viewty)	KF510	KP220	Motoline ZN5	N96	E71	5800 XpressMusic
Price (Rs)	20,490	12,250	4550	—	—	22,949	21,839
Size, weight (mm, grams)	103.5×54.4×14.8 112g	104.5×48.5×10.9 91g	104.6×46.7×12.4 73.5g	50.5×118×12 114g	103×55×18 125g	112×57×10 126g	111×51.7×15.5 109g
Display	256 K TFT with 7.6cm resistive touch screen, 400×240 pixels (WQVGA)	262 K, 5.6cm, 240×320 pixels	265K, 4.5cm, 128×160 pixels	6cm, 240×320 262K TFT	7.1cm, 240×320 pixels with up to 16 million colours	6cm QVGA, 320×240, up to 16 million colours	8.1cm nHD (840×360 pixels) with up to 16 million colours
Memory	100 MB internal memory, 1 GB bundled, up to 2 GB Micro SD	16 MB internal memory, 1 GB bundled, up to 4 GB Micro SD	60 MB internal memory, supports 2 GB Micro SD card	Up to 350 MB available memory, optional removable 4 GB micro SD card	16 GB on-board memory, expandable via microSD memory card slot	Up to 110 MB internal memory, support for up to 8 GB microSD memory card	81 MB internal memory, support for up to 16 GB micro SD memory card
Battery	1000mAh Li-ion, 330 hours standby, 4 hours talk time	800mAh Li-ion, 250 hours standby, 3 hours talk time	900mAh Li-ion, 240 hours standby, 3 hours talk time	950mAh, up to 310 to 579 hours standby, up to 349 to 574 minutes talk time	Nokia battery BL-5F, 950mAh, up to 200 hours (3G) and 220 hours (GSM) standby, up to 150 min (3G) and 220 min (GSM) talk time	BP-4L, 1500 mAh, Li-Po, up to 17 days (GSM) and 20 days (WCDMA) of standby, up to 10.5 hours (GSM) and 4.5 hours (WCDMA) of talk time	BL-5J, 1320mAh Li-ion, up to 17 days (GSM/WCDMA) standby, up to 9 hours (GSM) and 5 hours (WCDMA) talk time
Camera	5MP camera (Schneider-Kreuznach certified) with second camera for video call, CMOS, 5.1 MP 12x zoom, auto and manual with jog dial control, built-in flash with red-eye reduction and xenon type, 120 fps video recording	3 MP high-quality camera, AF CMOS, 3.2 MP, auto focus, built-in flash (off, on, auto, red eye reduction),	1.3 megapixel camera with continuous video recording, CMOS, 4x zoom, auto focus, with video recording	5 megapixel camera, auto focus, low-light optimised, digital zoom, multi-shot mode	Carl Zeiss Tessar lens, image capture at up to 5 megapixels (2592×1944) JPEG/EXIF, 16.7 million/24-bit colours, video capture at MPEG-4 VGA (640×480) at up to 30 fps, dual LED camera flash and video light	3.2 megapixel camera with auto-focus and flash, front camera for video calls, image capture up to 3.2 megapixels (2048×1536 pixels), video recording in QVGA quality	Carl Zeiss Tessar lens, image capture up to 3.2 megapixels (2048×1536), video capture nHD (840×360) at up to 30 fps, dual-LED camera flash
Connectivity	Ver 2.0 (A2DP) bluetooth, USB Ver. 2.0	V2.0 bluetooth, Ver. 2.0 USB	Bluetooth Ver 1.2 with A2DP, USB slave 1.1	AutoPairing with Motorola/Kodak bluetooth-enabled accessories, including Kodak EasyShare printers, stereo bluetooth class 2, high speed USB 2.0, mobile phone tools	WLAN IEEE 802.11b/g with UPnP support, hi-speed USB 2.0, bluetooth wireless technology 2.0 with A2DP stereo audio, enhanced data rates (EDR)	WLAN (IEEE 802.11g), FS-USB, infrared, bluetooth wireless technology 2.0 with A2DP stereo audio, enhanced data rates (EDR)	WLAN (IEEE 802.11 b/g), bluetooth wireless technology 2.0 with A2DP stereo audio, AV/RCP, hi-speed USB 2.0

group to achieve the zoom and should maintain a sharp image, whereas digital zoom works like a cropping effect, selecting a portion of the image and blowing it up to fill the total size of the final image.

However, the main drawback here is that optical zooming makes the phone bulkier and not handy to use.

Focus. The majority of camera phones are fixed-focus, but increasingly camera phones are available with auto-focus. If your budget allows, choose a mobile with focusing options.

Self-portrait and video recording. Some camera phones offer the self-portrait feature, which allows you to take your own picture. There are also other

phones that enable you to do video recording. If you plan to purchase a camera phone with video recording function, buy one which has enough memory and audio recording capability.

Display

Thin-film transistor (TFT) screens are common. These are based on liq-
