

New Products

POWER SUPPLY

1-3kVA UPS

Delta Group has introduced E-Series 1kVA to 3kVA UPS systems for small and medium enterprises (SMEs) and corporate segment. The new range of

single-phase UPS systems is based on true-online double-conversion technology with IGBTs at the inverter stage and provides pure

sinewave output with high reliability and efficiency. Input power factor correction up to unity reduces input current resulting in lower electricity bills and minimising harmonics. High AC-to-AC efficiency results in lower running cost, quieter operation and lesser load on air-conditioning.

600-1400VA home UPS

Intex Technologies (India) has introduced the Savio home UPS in 600VA and 1400VA configurations. The no-load shutdown feature enables these UPS to automatically shut down when not in use for ten hours of power cut, typically in a situation where the users are out of town, thus saving the battery discharge which occurs very slowly even when the unit is not in use. The built-in power saver helps in reducing electricity consumption. The ultra-fast transfer time for computer load delivers a hassle-free uninterrupted computing experience.

Available with a warranty of 24 months, the Savio 600VA and 1400VA retail at Rs 4100 and Rs 6500, respectively.

UPS battery

Greenvision has introduced a maintenance-free UPS battery called Relicell. The battery has a long floating and cyclic life span, high specific energy and low self-discharge rate. Completely leakproof, it has excellent anti-corrosion properties and performs well in varying temperature conditions.

Relicell is available in ratings starting from 12V, 7Ah to 12V, 245Ah and 2V, 100Ah to 2V, 3000Ah.

LIGHTING

PowerLED-based downlighter

Binay has launched a PowerLED-based recess-mount downlighter module (model QR111) with advantages of

long life and power saving. Consuming only 10W power, this light unit saves up to 90 per cent in energy consumption over its halogen equivalent. It is designed to replace the light output of a 100W halogen bulb and lasts 10-15 years.

The downlighter is available in a range of light-output beam angles (8 degrees, 15 degrees, 30 degrees, 45 degrees and 60 degrees) and colours (warm white, cool white, etc).

3W LED lamps

Smooth Power System has announced a whole new range of retrofit LED lamps that consume only 3W power and can replace 25W standard dichroic halogen lamps and 15W CFL reflector lamps. Good thermal design guarantees a longer service life and an average lifetime of 45,000 hours makes the lamps more long-lasting than traditional lamps.

The lamps are available in 12V and 220V with 60-degree beam angle in cool white and warm white.

STORAGE

128GB USB Flash drive

Kingston Technology claims to have released the world's first 128GB USB Flash drive—the DataTraveler 200 (DT200). The large capacity along with password protection gives users the flexibility to carry critical data with them at all times in a very small form factor. The USB can store complete libraries of music, photos and videos. It is also a great tool for business users who carry around large databases or files. The capless design protects the USB connector when not in use.
