

LEADERS. TECHNOLOGY AT EDUCATION.

■ VANDANA SHARMA

"...if we teach today as we taught yesterday, we rob our children of tomorrow."

— John Dewey, American psychologist and educational reformer

There is no denying the fact that the sure shot way of empowering any education system is to intelligently integrate technology into a rich, meaning-centered curriculum, and also into the teaching processes through which curriculum is imparted to students.

Tech@Edu Awards, a new initiative of the EFY Group, is a step forward in the direction of encouraging the use of technology in the education sector. The awards have been instituted to recognise the leading institutions from the education sector, for excellence in technology adoption.

Survey, scrutiny and selection

Over 2000 colleges were invited to participate in the contest. Apart from that, any institution was free to register online at 'www.efyedu.com'

The process started in the first week of May 2009. 187 colleges sent their inputs by the first week of June 2009. A jury comprising eminent persons from the industry and academia reviewed the details filed by the institutions. The entries were evaluated based on details pertaining mostly to the technology infrastructure such as

An Initiative To Encourage Tech Adoption In Education!

The inaugural edition of Tech@Edu Awards 2009 was more like a celebration of innovative technology practices in the field of education. We captured a few glimpses from the event for EFY readers
