

Dhirubhai Ambani Institute clinches HP Innovate Award

Dhirubhai Ambani Institute of Information and Communication Technology, Gandhinagar, has won the *HP Innovate 2009 Award* for the technical paper on Ce-Pal—an infrared-based remote control for cerebral palsy patients. The paper aims to assist spastic cerebral palsy patients in using electronic appliances like TVs, tape recorders, laptops, PCs or any other equipment operating at infrared frequency.

NIT Calicut was awarded the second prize for the paper on image processing, while the third prize was

won by Jaypee Institute of Information Technology University, Noida, for the paper on processor usage monitoring and management system.

Microtek wins award

Microtek International has been awarded by Soft Disk (SD) as No. 1 inverter and home UPS company for the year 2008. Microtek brand of inverter and home UPS has been voted best in terms of product, quality and after-sales service in SD's User satisfaction Survey, 2008.

Indian Institute of Technology, Kanpur (IIT-K) has reportedly got the green signal from the Indian Space Research Organisation (ISRO) to launch its first nano satellite. Weighing less than 3 kg and with most functional qualities of a normal satellite on a small platform, the payload of the satellite will include an indigenously designed camera for near remote sensing and a GPS receiver. The satellite will be launched in the polar orbit from Sriharikota.

Canon to invest Rs 1 billion in India

Canon India will invest Rs 1 billion towards enhancing its rental business as well as infrastructure to support B2B business. The strategy is to combat the current economic downturn and create a growth driver for its business imaging solutions division. This leasing plan from Canon India is designed to assist the corporates across categories to adopt the latest technologies in document management without having to invest upfront.

Commenting on this, Alok Bhargava, senior vice president, Canon India, said, "We are going to offer the facility of rental machines through our team of 80 sales people in direct sales business division that handles top 500 corporate accounts as well as the commercial print segment in India. This year, the rental business will be contributing Rs 600 million to Canon

India's turnover. We expect the rental business to contribute Rs 1 billion as we target Rs 10 billion revenues next year."
