

High Quality Imported Electronics Assembly Equipment & Tools

Please visit our website : www.indeenterprises.com for details

INDE® High Quality Electric Screwdrivers, Torque Meters, Screw Feeders & Bits

Available with
Swiss or
Japanese or
Taiwan
Motors

Available in Auto & Semi-auto, AC & DC operated types
Push-to-Start & Lever-Start options, in small torque range
as 0.5-6 kgf.cm & in large torque range as 16-40 kgf.cm

Wide variety of Bits

Automatic Screw Feeder
for high productivity
No need to align screws

Digital Torque Meters in wide range
Model HP-10: 0.15-100 kgf.cm
Model HP-50: 0.5-50 kgf.cm
Model HP-100: 1.5-100 kgf.cm

ESD Safe Fume Absorber

Model 493 ESD

High
performance
Fan and
Activated
Carbon Filter

Lead-Free Solder Pot

Model SP200

High
temperature
surface
coating

Digital Solder Pots
in various pot sizes
are also available.

RECHARGEABLE SMD SMART TWEEZER ST-R3 revolution in surface mount LCR measurement

New

Now with
rechargeable
batteries

Auto measurement of Chip Caps, Chip Resistors and Chip Inductors
Measures as small as 0.3mm chips • Displays active and reactive values
Convenient one-hand operation • Automatic chip component recognition

Economical
Cutting Plier

SMD
Tweezer
for 0402 chips
P/N I11P-KZ001

Electronics Toolkit
P/N IKE-MIN-813B-00
available in wide varieties

DC Power Supply

Benchtop DC Variable Power
Supply, Single Output
P/N: DCP1-2-18
(Double, Triple outputs available)

Digital Videoscope & Illuminated Magnifier for QC Inspection

P/N MagnaPRO52

(PC not included)

Adjustable
viewing
angle

P/N I268

Lightweight, move
anywhere on
the table

12x magnification
3x of main lens
4x of small lens

Table
Top type

Weller®

Complete SMT and Thru-Hole WR3M-WRK Rework Station

Includes all of following:

- Silverline WP 80 Soldering
Pencil for ultra fine pitch
large SMD ICs
- HAP200 Hot Air Pencil
for use with WRK Set
of Hot Air Nozzles
- Powerful DXV 80
Desoldering Pencil
for thru-hole reworking

- Vacuum Pick-up Pen to pick
& place delicate SMD ICs
- Hot Air with Vacuum Pick-up
Nozzle Set of 8 types from
10x10mm to 33x33mm size

Unique
hot air
nozzles
with
vacuum
pick-up
facility,
are placed
directly on PCB

Rework & repair large size QFPs, PLCCs, TSOPs

Weller®

WSD81 Digital Soldering Station

the production workhorse for
lead-free and SMD soldering

Digital display for set
& actual temperatures

Vary temperature precisely
with digitized push buttons
between 50°C to 450°C

Microcontroller & Memory
based Control Unit

"ESD" Safe

Fine SMD
Soldering

Lead Free
Soldering

We offer original Weller® spare parts as Heating Elements, Sensors, Soldering Tips, Desoldering Tips & other spare ex-stock.

INDE®

reliable & caring since 1976
