Laser-guided Door Opener

I want to assemble the 'Laser-guided Door Opener' project published in January issue. Please provide me the PCB layout of the circuit.

Manish Jain
Jodhpur

EFY: This project was published under 'Circuit Ideas' section, and we provide PCB layout for 'Construction' projects only. However, you may visit EFY website 'www.electronicsforu.com' and register for help under 'Bulletin Board' section. This section is like a forum where you can put up any kind of query or request and get it answered from the visitors to this website.

Room Light Controller

My M.Sc. Electronics students want to assemble the 'Automatic Room Light Controller' project published in Electronics Projects Vol. 22, but are unable to download it from the EFY website. Could you please provide us a soft copy of this project and the cost of components required to construct it?

Dr Susheel Sharma
Associate Professor
University of Jammu

EFY: You can download this project from 'www.efymagonline.com' website by proceeding as follows:

1. Click 'Home' button located on top of the page
2. Confirm the month of publication of this project by typing a keyword, say, 'room,' in the edit box provided on the right side of the page and then click 'search now' button. Now, you can see the title of the project along with the month and year of publication. In this case, you will see 'Automatic Room Light Controller' project as published in January 2001 issue. Now, to download it, you have to subscribe to this issue
3. Click 'Subscription' button to get the January 2001 issue. You have to select subscription type as '1 issue' before clicking 'Subscribe.' Since you are a new subscriber, fill in a registration form to provide us your details including email ID by selecting "Click here if you are a new subscriber" option

4. After providing your details including email ID in the registration form, click 'Proceed'

5. Pay Rs 125 using your Master/Visa credit card. After successful payment, you get access to all the contents of January 2001 issue. You can also download them. For detailed information about price and availability of components, visit the website 'www.kitsnspares.com'

UPS and Inverters

I have been a regular reader of EFY for past three years. From where can I get the information on UPS and inverters?

S. Raja
Tamil Nadu

EFY: You may refer to 'Which UPS or Inverter?' article published in May issue and 'Questions & Answers' section of EFY March 2002 on page 22.

Solar LED Light

I want to assemble the 'Solar LED Lighting System' project published in EFY Dec. 2008. Please tell me where in Kolkata can I get the 17V, 10W solar panel. Also, tell me its dimensions and cost.

Shahnawaz Haque
Kolkata

EFY: We had purchased a 17V, 10W solar panel from Alfa Interiors, Delhi (e-mail: ajaychachra@yahoo.co.in), two years ago. It was priced at Rs 4250. The dimensions were approx. 45×30×2.5 cm³. Similar product may be available at the following address: Swastik Enterprises, 10-A, Hospital Street, 3rd Floor, Suite No. 303, Kolkata; phone: (033) 22152570; e-mail: swastik@swastikenterprises.net

Controllable Electronic Load

In the 'Controllable Electronic Load Circuit for DC Power Supply' published in May issue, please read the value of resistor R7 as 0.1 ohm, 10W instead of 0.2 ohm, 10W. The circuit is meant for high currents where high-wattage resistors are normally required in the load circuit.
