

Embedded Starter Kit

Embedded ARM Starter Kit

Rs. 6,985/-

With Philips LPC2129 μ C, 2 UART, 2 CAN Ports, 4-ch 10-bit ADC, JTAG debugger, Example codes and Case Studies

Linux Starter Kit

Rs. 12,985/-

Samsung S3C2410 (ARM9 core), 64MB Flash, 64MB RAM, JTAG, UART, TV, VGA, SD Card, Audio Out and Mic, USB Host and Device, SPI/I2C/Ethernet, IDE, LCD + Touch screen interface

PIC Starter Kit

Rs. 4,985/-

With PIC16F877A μ C, LCD, 7-Seg Display, UART, ZIF sockets for 40/28/18 pin 16F and 18F series, Example codes and Case Studies

VLSI Starter Kit

Rs. 8,895/-

100,000 gate Spartan 3E FPGA, VGA, UART, Ethernet Port, JTAG Dongle, Example Codes and Case Studies

RTOS Learners Kit

Rs. 5,985/-

88V51RD2 based kit with Avx-51 RTOS, supports both Round Robin and Priority Based scheduling, Inter-task communication etc. Ideal for understanding RTOS concepts.

RFID-ARM Project Kit

Rs. 9,960/-

Ideal for Office / Home Automation, LPC2129 based SBC with integrated RFID module, 10 nos of RFID Tags, Example codes

RFID 8051 Project Board

Rs. 7,960/-

89V51RD2 μ C with 8-Ch ADC, UART, RTC, LCD, External 1K EPROM, 32K RAM, Add-on card with RFID Module, 10 nos. of tags, Example Codes and Case studies

Low Cost ARM Project Board

Rs. 2,985/-

With Philips LPC2129 μ C, 2 UART, JTAG Debugger, Prototyping area, Port pin Extensions, Example codes and Case Studies

ONLINE / DISTANCE - CERTIFICATION COURSES (Emblitz Varsity Associate Trainee program)

Embedded Systems Design

Rs. 8,760/-

Fully interactive self study course to learn embedded system design from scratch; Kit includes an 8051-based evaluation board, Video tutorial CDs, Software and Documentation.

VLSI Verilog Kit

Rs. 13,780/-

Fully interactive self study course to learn VLSI design using Verilog from scratch; Kit includes the VLSI Starter Kit with Video tutorials, Software and Documentation.

Embedded Linux

Rs. 19,500/-

Fully interactive self study course to learn Embedded Linux from scratch; Kit includes the ARM10-based Linux Learner's Kit with Video tutorials, Software and Documentation.

ARM

Rs. 6,800/-

Fully interactive self study course to learn ARM architecture, programming and applications from scratch; Kit includes an LPC2129-based project board, Video tutorial CDs, Software and Documentation with examples

Real Time Operating System

AVX is a cost-effective solution to any embedded system requiring a Hard Real Time performance.
AVX designed as a low-cost solution for RTOS in small and medium-scale embedded applications. Avx is fast, efficient, deterministic and complete, with a small footprint, and supports ARM7, ARM9, x86, AVR32, Coldfire and PIC32 architectures. VxWorks and POSIX-compliant API's enable migration from VxWorks and legacy RTOSs. An Eclipse-based IDE is provided for simulation and OCD debugging thereby reducing time to make and helping to make applications bug-free.

Corporate Training

We provide training programs to institutions and corporate organizations, with special emphasis on hands-on sessions and are delivered by experts with R&D background. Courses are conducted in microcontroller programming (8-bit to 32-bit), ARM, VxWorks, Linux, Board Support Package, Device Drivers, etc., and are supplemented with case studies and skills development workshops.

Design and Development Services

With our high-level expertise in cutting edge technologies including Embedded Software Development, Real-time systems, PLC based Factory and Building Automation, RFID solutions, etc., we offer product design and development services and technical consultancy to companies who are interested to out-source whole or a portion of their design jobs. We have developed several Embedded applications for use in areas such as Factory and Building Automation. Write to us at info@emblitz.com for your requirements.

Ordering Information:

- Send MO/ DD/Cheque for the order amount payable at Bangalore, in favour of M/s. Everest Infocom Pvt. Ltd.
- Online Funds Transfer to our Bank A/c No. 065010200011811 of AXIS Bank, Basavewar Nagar, Bangalore-560079
- Pay online using VISA/MASTERCARD at www.emblitz.com/catalog

Terms and conditions:

- The kit prices mentioned are inclusive of all taxes and Govt. levies.
- Within India shipping is done through courier free of cost.
- Foreign Customers are requested to visit our website for pricing and for other terms and conditions.
- Normal Delivery within 7 working days from the date of order confirmation.
- Warranty and Technical Support for all kits is provided; conditions apply.
- The kit specifications and prices are subject to change without any prior notice given.
- For more details on terms & conditions visit our website www.emblitz.com.
- All disputes are subject to Bangalore jurisdiction.

EmBlitz™
Embedded Technology Learner's Kit

Everest Infocom Pvt. Ltd.

Phone : +91 80 2314 0344, Telefax : +91 80 2314 6229

Mobile : +91 9986652733 9449104616,

E-mail: order@emblitz.com

3 Days
Hands-on
workshop on
Embedded
Systems

Place : Bangalore

Form 18th June, 2009

Fee: Rs. 8,500/-

(inclusive of taxes))

Eligibility : Knowledge
of Basic Electronics

3 Days
Boot Camp
Workshop on
C Programming
for Electronics
Engineers

Place : Bangalore

Form 15th June, 2009

Fee: Rs. 5,500/-

(inclusive of taxes))

Eligibility : Knowledge
of Basic Electronics
