

in line with Kibbee's philosophy: "The quality of an educational institute is essentially more by the kind of students it turns out than the kind it takes in." That's why we avoided ranking using the clichéd metrics and simply identified the institutes which successfully enhance the employability of a student.

A recipe can be judged best based on its user rating, right? Stands to reason therefore that the true value of an electronics engineering course can be judged best based on the feedback received from the industry. We at EFY have highlighted those institutes for you that are held in high esteem by the industry. These institutes are simmering with quality education, up-to-date course curriculum, state-of-the-art infrastructure and, moreover, a really good industry interface.

As the first attempt of its kind, it was not an easy task to carry out an all-India ranking for a particular discipline of study. Especially, when

Companies Which Participated in this Survey

A.V. Systems, Accurex Solution, Ahuja Radios, AIMIL, Alpha Design Technologies, Alstom, American Tec, Amphenol, Apollo Tyres, APW-President, Arcelomittal, Arrow Electronics, AVL India, Axis Aerospace & Technology, Barco Electronic Systems, Bose Research, Capgemini, Casio India, Continental Device India Ltd (CDIL), Coca Cola, Conzerv, Cookson India, CSIL, Deepakshi, DVS Electronics India, Electronics Corporation India Limited (ECIL), Elcompo Group, Elcomponics, Epcos, Evolute, Freescale Semiconductor, Graftec, Harting India, HCL Infosystems, HCL Technologies, Hical, Hi-Rel Electronics, HITA TECHNOLOGY, Honda, Hewlett Packard (HP), Huawei, Juki, L&T, Maxim SMT, Mechtronics, Modern Power, Napino, Neural Systems, Nnmtronics, NXP Semiconductors, O/E/N India, Omniscent Electronics, Panasonic, Parker Power, PCI Ltd, PCS Technology, Pepsi, Evolute, Rockwell Automation, Sahasra Electronics, Schurter Electronics, Shilchar Technology, SLN Technologies, SM Electronics Technology, Sofcon Systems, Tata Power, TCIL, TCS, Texas Instruments, TNS, Tomen, Tyco Electronics, Yogasa Systems

a zonal bias prevailed among the electronics organisations due to quicker availability of the talent. Barring a few, none of the respondents was ready to overcome geographical barrier only for recruitment purpose. So we ranked the institutes on a zonal basis rather than

all-India basis. We hope this endeavour will help would-be electronics professionals. Congratulations to all the winners! And well, for us at EFY research bureau, this is a humble beginning. ●
