

generation wireless network.

The entry of Reliance Mobile in the GSM segment has led to an expansion of the market, with the company seeing a 285 per cent rise in new subscriber additions, within the first month of its nationwide GSM rollout.

BEL signs MoU with Boeing and Astra Microwave

Defence PSU Bharat Electronics Limited (BEL) has signed an MoU with Boeing to jointly develop an analysis and experimentation centre in India to offer customers the ability to make better informed decisions in modernising India's defence forces.

"This joint facility will be staffed with local personnel who, with an inherent understanding of India's challenges, will be most qualified to work with the Ministry of Defence to explore and identify the best ways to satisfy their capability needs," said I.V. Sarma, director-R&D, BEL.

Working together, BEL and Boeing will develop in-country processes that allow for the development of local intellectual property as well as integration of other non-US products into our environment.

In another development, BEL and Astra Microwave Products, a provider of RF and microwave components and sub-systems for critical defence and civilian applications, have signed a memorandum of understanding (MoU) to form a joint venture company. The joint venture will design, develop, prototype, manufacture, and market RF and microwave products for use in defense, space and telecommunications.

HP India partners with TERI

Hewlett Packard (HP) India, in partnership with The Energy and Resources Institute (TERI), has launched the 'Hewlett Packard-TERI Schools' initiative to improve environment projects in schools. As part of the project, HP India has awarded a grant of \$250,000 comprising cash and technology resources for the programme. The primary objective of this partner-
