ship is to create a motivated force of students—leading to cleaner and greener school campuses—and initiate ecologically beneficial initiatives in the areas of energy, e-waste management and greening of neighbourhoods.

The initiative will help primary and secondary schools in Bengaluru, Chennai and Delhi to take practical action to save energy and water while reducing their utility bills. It will support the schools directly with ideation, as well as in implementing their environmental initiatives. The initiative also involves providing HP technology to the schools, which will enable them to network with other schools and share best practices.

Kshitij 2009

Students from all over India and neighbouring countries made their presence felt at Kshitij 2009, the annual techno-management symposium of IIT Kharagpur.

Kshitij 2009 was host to a lot of events in which the participants had a chance to showcase their knowledge in the fields of electronics, coding, hardware designing, aeronautics, robotics, mechanical engineering, chemical engineering and various other fields of engineering, technology and also management.

Of the forty odd events conducted during Kshitij 2009, the following events were a special attraction for the students of the department of electronics and electrical engineering all over the country: Anadigix (the electronics' circuit design competition) and Eureka (the technical paper presentation competition).

LG may increase R&D investment

LG Electronics has announced its long-term business plan and strategy to succeed in the current business environment. Yong Nam, CEO of LG Electronics, confirmed that the company would not reduce—and could even increase—its investment in R&D, marketing, branding and design.

The company has intensified its ef-
