

Wi-Box

The Wireless

new world of connectivity

Sparr Electronics Ltd, India's leading supplier of connectivity products brings you EAD-02-WBG, a low cost serial RS-232 to WiFi / Ethernet LAN connectivity system using the TCP/IP protocol. This product is available as a board level product for users to integrate into their systems or as a standalone boxed product for external connectivity.

Wirelessly Connect, Monitor, Manage and Control Devices Over a Network or the Internet

WiBox® dual-port device servers enable you to connect equipment to 802.11b/g wireless networks via serial or Ethernet, quickly and easily. By merging wireless communications and Lantronix device server technology, WiBox simplifies connectivity to devices in applications where mobility is required or cabling is impractical.

KEY FEATURES

- ▶ Enables access to remote devices while minimizing costly cabling
- ▶ Provides network mobility for untethered communication
- ▶ Industry standard 802.11b/802.11g wireless interface
- ▶ Transparent communications - no need to develop special software
- ▶ Two DB9 DTE serial ports supporting RS-232, RS-422 or RS-485 communication
- ▶ Bulletproof wireless security with IEEE 802.11i-PSK, WPA-PSK, TKIP
- ▶ 256-bit AES – end-to-end encryption
- ▶ Ethernet or wireless communication
- ▶ Features TruPort® Com port control technology

Also available from **SPARR**, world class solution from:

LANTRONIX®

The World Leader in Enterprise Device Networking, Lantronix products offer rugged, reliable and secure networking and connectivity solutions. For more information please visit www.lantronix.com.

SystemBase

SystemBase offers Industrial Device Connectivity for all Serial Communications. Products offered include Multiport Serial cards for PCI, ISA, PCMCIA and USB, Serial to Bluetooth Wireless, Port Powered RS232/RS485 Converters etc. For more information please visit http://www.sysbas.com/e_main.html.
