

"Can anybody get me a set of tools to test WiMAX from development to deployment?"

Not just anybody. Agilent supports WiMAX™ with the industry's most complete line of proven test products from development through deployment—for Fixed and Mobile WiMAX™ and WiBro, including Wave 2 and MIMO. First to market with simulation, signal generation and signal analysis tools for WiMAX, Agilent has added base station emulation,

performance, manufacturing and drive test solutions. As you take WiMAX™ forward, Agilent clears the way.

A sampling of Agilent's WiMAX test tools:

- Agilent E6651A Mobile WiMAX test set
- Agilent 89601A 802.16 WiMAX modulation analysis software with Agilent MXA or PSA spectrum analyzers
- Agilent N7615B Signal Studio for 802.16 WiMAX with Agilent MXG and ESG signal generators
