

PROVEN
20
YEARS

A system-wide AMR meter failure can cost a utility a lot more than the price of replacement batteries.

System-wide battery change-outs are costly, superior batteries are not. When battery failure is not an option, your only option is Tadiran. To prove it, tens of thousands of AMR devices powered by our lithium batteries are still going strong after 20 years in the field. So don't take chances. Take Tadiran.
