WORLD'S FIRST 200Hz LCD TV

WATCH ACTION AND SPORTS WITHOUT JERKS ON SONY BRAVIA Z450A

Price:
132cm: Rs. 359,900
117cm: Rs 243,900
102cm: Rs 183,900

Sony claims to have introduced the world's first LCD TV with MotionFlow 200Hz technology in India. With its ultra-smooth picture enhancement, the Bravia Z450A takes home entertain-

ment to the next level.

The advantages of this new technology can be noticed especially in action scenes or sports broadcasts as it reduces jerkiness by creating an additional, transitional picture that is inserted into fast-moving sequences. By increasing the number of images, the Bravia Z450A can display even the fastest sports scene smoothly without a blur. The transitional images are created by examining the pictures that immediately precede and follow the next image in the sequence. For example, MotionFlow looks at the flight of a cricket ball, to work out how it gets from the player's bat to the sky, and inserts the relevant transitional images.

MULTIMEDIA PROJECTORS

GIVE EDGE TO YOUR BUSINESS PRESENTATIONS WITH SHARP'S PG-F320W AND PG-F255W

Price:
PG-F255W: Rs 75,000
PG-320W: Rs 99,000

Sharp Business Systems (India) has expanded its multimedia projection systems lineup with the launch of PG-320W and PG-F255W. Designed for business users, these projectors promise quality, flexibility, ease-of-use and portability.

The projectors are WXGA (1280×800-pixel resolution) compatible and provide 16:9 wide-screen viewing area, which is 1.3 times wider than standard XGA (1024×768-pixel resolution). The advanced optoelectronics technology maximises light output, providing crystal-clear images in high brightness. The 3X colour wheel includes yellow and cyan, in addition to red, green and blue, reproducing highly realistic colourful pictures.

The PG-F255W and PG-320W boast of upwards of 2500 and 3000 ANSI lumens with an impressive 2200:1 and 2000:1 contrast ratio, respectively. Both the models are ideal for use with WXGA laptops, in small- to medium-sized venues.

GEN-NEXT KEYBOARDS AND PIANOS

THE NEW KEYBOARDS AND PIANOS FROM CASIO COME WITH INDIAN TONES AND RHYTHMS

Casio India has launched a new range of digital pianos and keyboards that combine tradition with technology.

The multifunctional keyboards come with special features. Audio-in terminal lets you connect the MP3 player and play your own music along with the song. With the mike attachment, you can karaoke, with live music played on the keyboard. You can sample sound from an audio device and use it while playing.

The Privia pianos come with natural key touch and majestic sound quality, while the Celviano range of pianos have an elegant design with rich resonance. GenNext digital pianos blend an improved AIF sound source with 128-note polyphony, which makes their tone quality very similar to acoustic pianos. Some pianos also have Indian tones and rhythms, SD card slot, pitch bender, audio-in terminal and rhythm editor.
