AFFORDABLE
MOBILE PHONES

**SAY GOODBYE TO HEADSETS AS LG
LAUNCHES ITS FIRST ANTENNA
FM RADIO PHONES**

Price:**GB110: Rs 3100****GB106: Rs 2100**

The LG GB110 and GB106 mobile phones don't require you to attach a headset while listening to FM radio. So there are no hassles associated with using a headphone. Equipped with Intenna FM radio, the phones let you listen to unlimited songs and tune into favourite music shows, sport reports, updates and other information without adding headset to the phone.

Both the handsets are packed with an extremely strong battery that gives up to ten hours of talktime, 3.8cm colour display, extensive phonebook memory and a stylish leatherite carry pouch to save the phones from scratches. While the GB106 packs in an anti-theft mobile tracker, the GB110 comes with additional features like a 1 GB VGA camera, a micro SD card slot, an expandable memory of up to 2 GB and MP3 playback.

PORTABLE MUSIC SYSTEM

HEAR YOUR iPod THE BOSE WAY

The Bose SoundDock portable digital music system bring your iPod tunes to life for all to hear. Your iPod can be enjoyed out loud in more locations, without compromising sound quality. The system is easy to use: Just dock and play your compatible iPod. It charges while you enjoy music with no interruptions.

The system reproduces your favourite tunes with fullness and clarity unusual for a portable system. And it's so compact that you can take it just about anywhere, even outdoors.

A rechargeable lithium-ion battery (included) provides more power and longer playing time than most

**Price: Rs 23,513**

rechargeable batteries. The rotating iPod docking station disappears for storage and protection during transit. The moulded handle makes it easy to carry this iPod accessory from place to place. A custom remote easily controls the system and basic iPod functions including playlist navigation. The auxiliary input lets you play other portable sources too.

PORTABLE DLP PROJECTORS

THE BENQ CP270 AND MP727 ARE GOOD FOR BUSINESS TRAVELERS

BenQ's new projectors aim at providing optimal solutions for frequent traveling professionals.

The 1.5kg Commuter Series CP270 is ideal for business travelers and small offices. It projects at native XGA (1024x768) resolution and features a high brightness of 2000 ANSI lumens with a high contrast ratio of 1000:1. Further, its 30-second quick-cool feature allows the projector to cool fast even after long usage hours.

Targeted at the industrial sector, the MP727 high-brightness projector is equipped with a host of features that suit the needs of small- and medium-size businesses. This intelligent and automatic projector gives high-quality output in almost any condition. The projector has a brilliant 4300 ANSI lu-

mens, which makes it perform in black-out conditions to well-lit environments. Contrast ratio is as high as 3500:1. For multimedia users, the MP727 projector has HDTV compatibility, integrated 3-watt speaker and HDMI 1.3 (with HDCP). The universal audio remote lets you easily adjust the volumes of all audio devices connected to the projector, such as external speakers, DVD player and notebook.
