TABLETOP DESKTOPS

THE HP CQ 2000 SERIES DESKTOPS WEIGH ONLY 3.5 KG AND COME LOADED WITH COMPAQ BHASHA VERNACULAR INTERFACE

The Compaq Presario CQ 2000 series of Hewlett Packard (HP) is a sleek, eco-friendly machine at an affordable price of around Rs 18,990. Designed for the modern households, this small device can easily replace your music system and DVD player as you can attach it to your LCD monitor and speakers or simply enjoy online video clips on YouTube. The CQ 2000 also comes with the Compaq My Bhasha software—a communication enabler providing vernacular interface.

With a 6-in-1 digital media reader and USB drives, all you need to do is plug-in, sit back

and do what you need to. The CQ 2000 is Energy Star certified for being energy-efficient.

Price: Rs 18,990 plus taxes

ULTRA-SHORT-THROW PROJECTOR

HITACHI'S CP-A100 PROJECTOR ELIMINATES SHADOWING EFFECTS

The presenter's shadow on the screen during a presentation and the projector glare which blinds the presenter, have been the two major problems with the projectors. Hitachi has developed an ultra-short-throw projector that overcomes these problems.

The dramatic reduction in throw distance (capability to project an image onto a 203cm screen from a distance of merely 24.8 cm) and the introduction of a high-angle pro-

jection capability means that the Hitachi CP-A100 projector can be mounted very close to the screen. This brings additional convenience, viewing comfort and safety while eliminating shadowing effects common with conventional projectors.

The high-quality 3LCD panel provides crisp, flicker-free images at XGA resolution. Brightness level is 2000 lumens in normal mode and 2500 lumens in bright mode. The contrast ratio is 400:1. In whisper mode the projector has quietness of 28 dB—the same as that of a guest room in a hotel!

Price: Rs 125,000

AIRTEL IPTV SERVICE

AIRTEL'S DIGITAL TV INTERACTIVE OFFERS TELEPHONE, BROADBAND AND TV ON A SINGLE LINE

Bharti Airtel has launched the digital TV interactive—its Internet protocol television (IPTV) service. With this, Airtel delivers the triple-play advantage of telephony, broadband and entertainment service to its customers. The triple-play service will be initially available to customers in Delhi, Gurgaon and Noida.

Airtel digital TV interactive claims to bring many firsts to the TV viewing experience: Interactive 2.0 offers a completely interactive experience including the freedom of ordering pizzas and movie tickets from the comfort of your TV set. Time-shift TV transforms TV into a two-way experience, allowing you to pause and

Entry cost: Rs 3999

rewind live TV as well as auto-record and store favourite programmes for seven days. Movie-on-demand with 100 blockbuster titles means you can view movie of your choice at any time.

The entry cost for the Airtel digital TV interactive subscriber is Rs 3999 only. This includes a one-time activation cost, Internet connection with modem and landline, and set-top box.
