POWER SUPPLY

Sinewave combo UPS

UTL has launched a high-frequency sinewave combo UPS that can charge from as low as 90V. Available in the ratings of 810 VA and 1410 VA and three colours, HI-LITE has a lucrative

body with just 2.5 kg of total weight. Pure sinewave output makes it soundless.

The UPS is loaded with features like selectable fast/normal charging, auto-restartable no-load shutdown, higher efficiency that gives 15 per cent more back-up, auto-adjustment with any kind of battery and touch switch for smooth operation.

The UPS is priced at Rs 5990 for 810 VA and Rs 8790 for 1410 VA.

Car inverter

MX has introduced a car inverter that can charge your laptop, mobile, car cleaner, coffee maker, iPod, PlayStation portable, camcorder, hair dryer, electric razor, digital camera and many other gadgets while you are driving.

The device converts 12V DC into 250V AC and is quite easy to use: Insert the plug into

the cigarette lighter socket available on the dashboard, check whether it is in 'on' condition and plug-in the universal socket for AC output.

LED power solution

Meanwell has introduced a waterproof LED power solution in four different series (CLG, PLN, ELN and LP) ranging from 18W to 150W with 5V DC to 48V DC output in constant-voltage or

constant-current type. Different types of casings (IP-64, IP-65, IP-66 and IP-67) are available depending on the series.

CLG Series comes with built-in active PFC function and UL/TUV/CE approval, while other series are 'CE' certified. Safety standards meet UL1310 Class-2 as well EMC standards.

STORAGE

Hard drives for surveillance systems

Seagate's SV35.5 Series hard drives for digital video surveillance systems are built for rigorous 24x7 use with capacities up to 1 TB.

These provide a number of key advantages for video surveillance environments over standard hard drives, including performance-tuned 140MB/s

sustained sequential data rates and ATA-7 streaming commands for high-speed transfers, enhanced caching capabilities and built-in error recovery for non-stop

streaming, thermal monitoring and reporting, unique user-selectable partitioning, low spin-up power, and best-in-class acoustics for extremely quiet operation.

Backup USB flash drive

SanDisk Corporation has launched a backup USB flash drive in capacities of up to 64 GB. The drive is designed to protect computer users' photos, music, videos, personal and business documents, and other types

of digital files, at the touch of a button without the need for any software installation.

It protects on-board digital content with a dual layer of security—password-protected access control and ultra-secure AES hardware-based encryption.
