Since this information is subject to change, all those interested are advised to ascertain the details from the organisers before making any commitment.

cent to \$17.75 million.

Some of the significant orders executed by the company during the year included supply of high-power HF communication sets, frequency-hopping VHF transceivers, UHF radio relays and artillery combat command control systems. Also, BEL introduced and supplied more than 20 new products during the year.

NDS ties up with HCL Infosystems

NDS, a provider of technology solutions for digital pay-TV, has tied up with HCL Infosystems to enable local cable TV operators to launch digital services and increase their market share. The two companies will offer pre-integrated solutions that are quick to implement and integrate, ensuring fast time-to-market while minimising operational costs.

NDS offers an end-to-end package for digital pay-TV that is competitively priced, based on open standards and features solutions including VideoGuard conditional access, MediaHighway middleware and NDS electronic programme guide tailored to the local market—all designed to help operators fast-track to digital TV.

Infineon to supply EDGE platform to Nokia

Infineon will supply its XMM 2130 EDGE platform to Nokia, enabling the mobile device manufacturer to bring a new breed of Internet-capable devices to the market.

Said Peter Bauer, chief executive officer, Infineon Technologies AG, "Our solution offers affordable access to the fast growing Internet market on mobile devices. We consider this solution as the best in class in terms of performance, integration, scalability and cost position."

Infineon offers a mobile phone platform featuring an EDGE modem, audio player, stereo RDS FM radio receiver, stereo headset, USB interface as well as interfaces for memory cards. The XMM 2130 is manufactured in a 65nm process.
