

PANTECH - DEVELOPMENT BOARDS

PANTECH SOLUTIONS™
Technology Beyond the Dreams

FPGA Advanced Development Board

- Xilinx : XC3S200(SPARTAN3 FPGA)
 - 200,000-gate
 - Up to 97 user-defined I/O signals
- Xilinx : XC3S500(SPARTAN 3 FPGA)
 - 500,000-gate
 - Up to 178 user-defined i/o signals

Unique Features

- 128X64 GLCD Interface.
- 10Mbps Ethernet Interface.
- 3-bit, 8-color VGA display port.
- I2C, SPI, EEPROM.
- RF Communication (433.92 MHz).
- Two Full Duplex UART (EIA).
- RS485-Line Driver.
- 8-Channel ADC, SPI DAC.

Other Products

- Embedded Development Boards (8051, PIC, AVR, ARM).
- Blackfin 532 Development Boards.

DIGITUS II (FingerPrint T & A and Access Control)

Unique Features

- » Stylish design
- » AA battery for backup
- » USB or TCP / IP Communication
- » Separate type secure access control

PANTECH ACADEMY OF TECHNICAL EXCELLENCE

Embedded System

8 Bit/ 16 Bit / 32 Bit Controller (8051, PIC, AVR & ARM)
Real Time Operating System.

Digital Signal Processor

Signal Processing Design-16 Bit / 32 Bit (Sharc, Black Fin & Texas)
Algorithm Modeling for Image Processing.

VLSI

Advanced CPLD & FPGA Design(Xilinx & Altera).

Power Electronics

Electric Drives Control

- TMS 320 F2812 & 2407A
- Spartan3FPGA
- ARM & dsPIC.

Industrial Automation

PLC & SCADA.
