HIGH-DEFINITION MONITOR

ENJOY VIDEOS IN HD-BROADCAST QUALITY ON VIEWSONIC'S VX2433WM

Price: Rs 22,499

ViewSonic has launched a 61cm (24-inch), 16:9 wide-screen high-definition (HD) monitor—the VX2433wm. Boast-

ing of a 2ms video response time, this monitor enables digital HD-broadcast-quality video. The company claims that the monitor offers a 20,000:1 dynamic contrast ratio.

HD speakers extend the frequency range of this monitor and allow for clear sound. The display also features multiple inputs including HDMI (High-Definition Multimedia Interface) and DVI (digital video interface) that give you connectivity options for high-definition data and entertainment.

The display is compliant with safety and environmental standards. It comes with an eco-mode that automatically reduces power consumption and extends backlight life.

LOW-COST DESKTOP

INTEX SILVER GB-75501 DESKTOP IS BASED ON INTEL ATOM

Price: Rs 12,900/Rs 13,500
(depending on the configuration)

Targeting B- and C-class towns to increase the PC penetration, Intex Technologies (India) has launched a low-cost desktop PC. Powered with Intel's Atom processor, the Silver GB-75501 desktop consumes less power and saves space due to its compact and sleek design.

The desktop comes in two variants: One has a 945 GCLF Intel chipset, 1GB memory, 80GB hard disk, DVD ROM and 43.2cm CRT monitor and is priced at Rs 12,900. The other variant has the same basic configuration, except for a 160GB hard disk and a DVD writer. It is priced at Rs 13,500.

LASER PRINTER FOR SMBs

THE XEROX PHASER 3435 CAN BE SET UP IN FIVE EASY CLICKS

Xerox India has launched the Phaser 3435 laser printer for SMBs. This B&W printer supports automatic two-sided printing and printing speed of 33 pages per minute for A4-size prints. It can be set up in five easy clicks and ensures print quality of 1200 dpi.

The printer reduces the waiting time with a first-page-out time of 8.5 seconds in running condition and first-page-out time of 15 seconds in sleep mode. A fast processor of 400 MHz and internal memory of 64 MB equip the printer

Price: Rs 35,272

to handle complex processes and documents and print without delay.

The Phaser 3435 supports Windows, Macintosh and Linux operating systems. It has a standard memory of 64 MB, which is expandable up to 320 MB. Its duplex print technology allows you to print on both the sides of the paper, making optimal use of paper.
