is expected to close in the first calendar quarter of 2010.

According to the agreement, Trident will have an extensive portfolio of consumer IP applicable to a range of markets, with over 2000 granted and in-process patents including motion estimation/motion compensation and conditional access as well as advanced 45nm SoC technology. The combined product portfolio will enable Trident to offer a broad range of semiconductor

solutions to the digital home market, which will reach \$5 billion by 2010.

Genpat opens ROC in Hyderabad

Genpat has opened its remote operations centre (ROC) in Hyderabad. The centre will utilise the company's remote infrastructure delivery system to provide uninterrupted and secured application and infrastructure monitoring and support services to

clients worldwide.

The ROC is equipped with biometric enabled physical security, virtualised desktops that provide security, mistake proofing tools and touchscreen phones that can function as additional monitoring systems.

IDA is Beagle Board's distributor in India

IDA Systems has been appointed as the official India distributor of the Beagle Board computers. The Beagle Board is a low-cost, fan-less single-board computer based on Texas Instruments OMAP35x processors featuring the ARM Cortex-A8 core.

The OMAP3530 includes an ARM Cortex-A8 CPU (which may run either Windows CE or Linux), a TMS320C64x+DSP for accelerated video and audio decoding and an Imagination Technologies PowerVR SGX530 GPU.

IDA Systems will now bring to India the NanoNote mini computer. It is a small form-factor computing device.

Accenture to modernise Indian Post Offices

India's Department of Post (DoP) has awarded a 45-month information technology (IT) modernisation contract to Accenture to design a new enterprise IT architecture and make DoP more efficient, reliable and user-friendly.

Accenture also will advise DoP on the development of a wide-area network environment that helps connect all post offices through online services. It will study the feasibility of implementing an enterprise solution for the department's core banking and advanced financial services.

The project will help DoP drive greater revenue and regain market share in different services and products like bill payment, e-posts, life insurance, money transfer and banking.
