

Metro Electronic Products

Metro Electronic Products is a 50-year-old company, dealing in test & measurement (T&M) and soldering equipment. The company was established in 1960 by Prem Prakash Kwatra to deal in components, but soon the company changed its product line to testing and measuring equipment. Since then, Metro has been a leading player in the T&M industry.

Metro's brand of products, MASTECH and METRO-Q, register a high customer satisfaction and help building long-term relationships with them. The company has a wide and one of the largest network of dealers spread across India.

MASTECH is a world renowned provider of testing instruments, which are exclusively marketed by Metro in India. Along with this, the company also markets an exclusive range of cost-effective instruments under the brand name METRO-Q and MASTECH.

Metro is the sole distributor for MAX GOLD range of soldering equipment. Besides, the company owns two retail showrooms in Lajpat Rai Market and Bhagirath Place, Delhi, which cater to a wide base of customers.

The company has a strong expertise in T&M domain and strives to provide customised solutions to its customers at the most competitive price, which is very important in the present

Indian industrial scenario.

Also, Metro tries to introduce the latest technology and products in the country through its suppliers from all over the world. The company facilitates its Indian customers to buy from a single source to save energy and time.

Metro is in the process of launching a new sophisticated range of soldering /desoldering equipment under the established brand of METRO-Q by the year end.

The company's list of product range is as under:

Multimeters (digital & analogue)

Environment testing equipment (Light/Air/Sound/Temperature/Humidity)

Oscilloscopes (CRO & DSO)

Function generators and oscillators

IC programmers & testers

Power supplies

Frequency counters
