8 out of 10 engineers the world over rely on Tektronix oscilloscopes to help them meet their design goals. So can you.

The vast majority of engineers depend on the industry-leading performance, precision, flexibility, ease-of-use and reliability of Tektronix oscilloscopes, software applications and accessories. In short, they set the standard by which all others are judged. Our broad portfolio includes everything from complete debug and analysis to the most advanced acquisition engines, including the 20 GHz MSO70000 the industry's ONLY performance Mixed Signal Oscilloscopes. In fact, Tektronix has remained an innovator in test and measurement for over 60 years. So rely on a Tektronix scope, and the experts standing behind it, to help you take on the world.
