

"I need a faster, more accurate audio analyzer."

We knew you'd say that.

The new Agilent U8903A audio analyzer is four times more accurate and over seven times faster than its popular HP 8903B ancestor. In fact, it is among the fastest and most accurate currently in its class. It's also a more fully capable audio analyzer, letting you make crosstalk measurements and phase measurements, FFT analysis, and graph sweep. And it will soon be upgradable to eight channels. You can't find that anywhere else. Go online to learn more about this remarkable new audio analyzer.
