

INTERACTIVE TABLET WITH MULTI-TOUCH AND PEN INPUT

WACOM BAMBOO SERIES MERGES MULTI-TOUCH FUNCTIONALITY WITH PEN TABLE TECHNOLOGY IN A SINGLE DEVICE

Wacom has launched its second generation Bamboo series of interactive tablet with multi-touch and pen input.

Features & USP.

The Bamboo tablet is high in sensitivity of the surface and merges multi-touch functionality with pen tablet technology in a single device. Besides catering to design needs, it can transform any desktop and laptop into a cheap tablet PC. The Bamboo tablet allows a simple finger tap on the digital pad to select an icon, open a menu or start an application. Also, a variety of intuitive two-finger gestures enable you to simply rotate an image or document, flip through a digital photo album or pres-

entation, scroll through a blog or an Excel sheet and zoom in and out of a photo or map.

Bamboo can be used to customise your e-mails, letters, spreadsheets, etc with signatures, notes, doodles and scribbles. Bamboo comes bundled with Adobe Photoshop Elements and Ink Squared Deluxe.

This new family of devices comprises four different variants—Bamboo, Bamboo Fun, Bamboo Pen and Bamboo Touch.

Price:

Bamboo Pen: Rs 4,950

Bamboo Touch: Rs 4,950

Bamboo Pen & Touch: Rs 7,200

Bamboo Fun Pen & Touch: Rs 12,500

ENTRY-LEVEL LABEL PRINTER

BRADY'S BBP11 OFFERS LOW-COST SOLUTION FOR SMALL FIRMS

Brady Company India has launched BBP11 label printer—a small, entry-level printer for laboratories, aerospace and defence firms, etc.

Features & USP. With a high-quality 300dpi print resolution, a small footprint and a range of high-performance label materials, the BBP11 label printer is a low-cost solution for set-ups that are moving toward print labels and barcode label printers, or general industrial companies with low to medium volume label printing.

Designed to be easily integrated into a variety of applications, the space-saving desktop printer has a built-in Ethernet port, triple communication interface (serial, USB and parallel), and dual-walled construction for added durability and strength.

The printer is capable of printing labels, tapes, cable markers, sleeves, etc.

Price:

Base version—Rs 38,000

Premium version—Rs 50,000

CAMERA WITH BUILT-IN PROJECTOR

NIKON'S COOLPIX S1000PJ TRANSFORMS PHOTO-SHARING INTO A MULTIMEDIA EXPERIENCE

Nikon India has launched a compact digital camera, featuring the world's first built-in projector.

Price: Rs 28,950

Features & USP. The COOLPIX S1000pj transforms photo-sharing into a multimedia experience. With the touch of a button, users can project images and videos as large as 101.6 cm, and with the camera's unique slideshow function they can play back pictures with music, effects and creative transitions.

The camera also features 12.1-megapixel, a 5x wide-angle zoom-NIKKOR glass lens, ISO from 80-6400, a 6.8cm wide-angle LCD display and 5-way functions to reduce image blur. The COOLPIX S1000pj is available in silver and black colours.
