

Total Solution of Test & Measurement

Basic T & M Component & Safety

- Digital Multimeter
- Intelligent Counter
- Power Meter
- LCR Meter
- Safety Tester
- Milli-Ohm Meter

Power Supply

- Linear Power Supply
- Switching Power Supply
- AC Power Source

Spectrum Analyzer & Signal Source

- Spectrum Analyzer
- DDS Function Generator
- Arb. Function Generator
- Function Generator
- Signal Generator

Oscilloscope

- Analog Oscilloscope
- Analog Oscilloscope with Cursor Readout
- Analog Oscilloscope + Function Generator

World-Class Quality, Affordable Price, Wide-Selection

After 30 years in the test and measurement industry, GW Instek has just one story to tell. It starts with our experience creating highly accurate test equipment, and ends with our deep understanding of the various industries that depend upon it. Started in 1975, GW Instek designs, manufactures and markets data acquisition and control instruments for both device and production /assembly testing.

Our portfolio includes over 150 products across five key lines. Just like our product range, the industries we service are as diverse as they are specialized. Together, our experience and expertise allow us to deliver high-performance test solutions that address the unique requirements of each client. Solutions that are backed by comprehensive after-sales support, warranty and calibration services, with one of the industry's best price vs. performance ratios. Solutions that are "Made to Measure."
