

EQUALISER MONITORS SERVERS AND MANAGES TRAFFIC

TEZ'S COYOTE POINT EQUALISER APPLIANCE AIMS AT IMPROVED APPLICATION PERFORMANCE AND BETTER RESPONSE TIME

Tez Networks has launched Coyote Point equaliser appliances in India.

Features & USP. The equaliser products guarantee availability of critical applications by monitoring servers and applications. It ensures that users are sent to the best performing and available server for each request. The appliances accelerate applications by sending traffic to the application running on the fastest-responding and least-loaded server.

Price: Rs 10,49,995 (E650GX)

The equaliser product, which is placed in front of web servers or application servers, can intelligently manage the traffic going to multiple servers. The equaliser product line includes four hardware platforms—E250GX, E350GX, E450GX and E650GX.

HEADSET WITH NOISE FILTER

JABRA BIZ 620 FILTERS OUT UNWANTED NOISE AND PROTECTS USERS FROM HARMFUL SOUNDS

GN Netcom has launched Jabra BIZ 620 headset in the Indian market. It is optimised for use with leading Unified Communications (UC) clients.

Features & USP. The new lightweight headset features wideband audio and noise canceling microphone, which filters out unwanted background noise. Its PeakStop technology protects users from harmful sounds. It offers superb sound quality and plays a key role in maximising the adoption rate of professional headset solution. The intuitive inline call controls allow the user to easily manage calls from the headset and increase productivity.
