

Made for the New RF Era

For the new generation, GSP-Series spectrum analyzer has various testing functions based on full synthesis and low noise design; it's equipped with diverse functions, user-friendly operation, and complete set of optional items.

GSP-830 3GHz Spectrum Analyzer

- Frequency Range : 9kHz ~ 3GHz
- Sequence Programming Function
- Split Windows Allow Separate Settings
- USB/RS-232C(Standard)/GPIB(Optional) Interfaces
- 6.4" TFT Color LCD, Resolution: 640 x 480
- AC/DC/Battery Operation (Option)

GSP-827 2.7GHz Spectrum Analyzer

- Frequency Range : 9kHz ~ 2.7GHz
- Split Window
- AC/DC/Battery Operation (Option)
- 10 Markers : Delta Mode, Peak Search, Peak Track

GSP-810 1GHz Spectrum Analyzer

- Frequency Range : 150kHz ~ 1GHz
- Fully Digital Phase Locked Loop Technique Design
- RS-232C Interface and Software to Get Trace from GSP-810 to PC

EMI Pre-Test Solution with Efficiency and Convenience

Before sending product to the EMI laboratory for certification, you can use the GKT-006 to find around the product to pick up the radiated signals and locate the radiation sources using a GSP-830 Spectrum Analyzer. It will not only speed up your trouble shooting but also save lot of your time and money.

EMI Probe Kit Set

GRF-3300-The most Integrated and Effective RF Training Solution for Wireless Communication Education

The RF Training systems with the combination of a training syllabus, basic theory, Systematic demonstration and hands on experiments make it the perfect match for modern RF Communication Education.

RF & Spectrum Analyzer Training System

Channel Partner & Distributor in India
