Electronics For You Annual Guide (EAG) has been a B2B platform for the Indian electronics industry for over 40 years!

This edition is the first step towards our goal to make the EAG and eleB2B.com India's leading Yellow Pages for electronics and IT products. The new format has been designed to make it easier for decision-makers to locate possible sources of B2B purchases and alliances.

Work has started on the 2nd edition, and we hope to come up with multiple editions of the EAG within a year, to keep the information up-to-date.

Terms & Conditions: * Registration for FREE copies of the EAG, and for listing in the EAG and eleB2B.com, is open to all. But, their acceptability is subject to quality and suitability of information submitted.
