

VIDEOCON INDUSTRIES LTD

Rs 119,808 mn (2007-08)

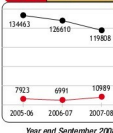

From being just another consumer durable manufacturer a few years back, Videocon today is a \$4 billion giant that spans the globe from Boston to Busan. Videocon today is the third largest OTC (colour picture tube) manufacturer in the world with a total production capacity of 22 million per annum. In India, Videocon is the only manufacturer of the glass panels, a key component for a colour picture tube. Thus every TV sold in India with an Indian picture tube has a Videocon inside. Continuing its trend-setting pace of expansion, the company recently launched its maiden UPS H product range through its power division.

LG ELECTRONICS INDIA PVT LTD

Rs 107,000 mn (2008)

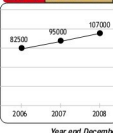

LG Electronics India Pvt Ltd (LGEL), a wholly owned subsidiary of LG Electronics, South Korea was established in January 1997. It is one of the most formidable brands in consumer electronics, home appliances, IT hardware and mobile communications space. LGEL's manufacturing unit at Greater Noida is one of the most eco-friendly units amongst all LG manufacturing plants in the world. Betting big on the Indian growth story, LG recently said it would invest about \$1 billion here for marketing and research over the next five years. For the past couple of years, the Korean major has been investing around \$130 million a year on R&D and marketing. Now, LG has chalked out plans to pump more money in these areas to push sales and expand research activities.
