LCD TV WITH SENSEYE HUMAN VISION TECHNOLOGY

BenQ's SE2231 DISPLAYS HIGH-DEFINITION BROADCASTS, BLU-RAY MOVIES, CAMCORDER VIDEOS AND PC APPLICATIONS

Price: Rs 16,999

BenQ has launched a 56cm LCD monitor TV—SE2231, with an introductory offer of a free DTH connection, installation and six months' subscription with every purchase of this device, till stocks last.

Features & USP. The TV displays high-definition broadcasts, Blu-ray movies, camcorder videos, console games and PC applications like documents, games, Web browsing and picture viewing. It also comes equipped with 10,000:1 auto contrast enhancement (ACE), rapid response time and HDTV 1080p compatibility. It renders native 1920 X 1080 resolutions, which enhance visuals to 1080p/24Hz while increasing PC productivity and TV entertainment. The auto contrast enhancement of the TV optimises contrast levels through automatic adjustment of the display backlight for original black levels.

BenQ's Senseye human vision technology, which is an image enhancement engine, produces life-like clarity. Four Senseye preset modes (cinema, dynamic, standard and custom) offer one-touch fine tuning for both PC and TV content. Digital sound emitting from dual 3-watt speakers can be adjusted to classic, pop, rock and jazz, with preset audio modes.

DIGITAL CAMERA WITH HIGH-DEFINITION CCD SENSOR

GENIUS G-SHOT P6533 COMES WITH A 12X ZOOM TO CAPTURE CLEARER IMAGES

Genius, a brand from KYE Systems Corp., has launched a digital camera—G-Shot P6533 in India.

Features & USP. The camera has a 6.0 megapixel high-definition CCD sensor that helps the user to take detailed photos from 5.08×7.62 cm up to 30.48×45.72 cm size. With a 3X optical zoom lens plus 4x digital zoom, the G-Shot P6533 provides a total of 12X zoom to capture images. By using the 12x zoom, the user can capture telephoto and wide-angle shots. The new offering also supports multi-scene mode and one can select from portrait, landscape, sports, night, programs and auto modes.

This 6.1 cm TFT LCD display can easily compose the subject and review one's work. With two AA alkaline batteries, the user can take over 100 pictures.

The other notable features of the product include burst mode, direct print function and video mode. The camera, which can be doubled as a web-cam, supports an SD card of up to 2 GB.

Its design is very attractive, thanks to its slinness, compactness and style. The

camera looks attractive with its aesthetically good red and silver finish.
