

DVD PLAYER WITH DOLBY DIGITAL SOUND OUTPUT

R-220 FROM INTEX HAS USB PLAYABILITY TO GIVE USERS AN EASY AND COMFORTABLE PLUG-N-PLAY MOVIE/SONG EXPERIENCE

Intex Technologies has unveiled the R-220 DVD player, which, the company claims, is the only DVD player in the market that comes with a pair of speakers incorporated in the same

price package.

Features & USP. The player has a 5.1 channel Dolby digital sound output and an inbuilt amplifier. It can play all audio and video formats, is DivX (3.11/5/6x) compatible, and has USB playability to give users an easy and comfortable plug-n-play movie/song experience. The speaker duo has an elegant black wooden finish.

Price: Rs 3,890

HOME THEATRE WITH DSP

LG HT924 BRINGS WITH IT 1200W RMS AND A TRUE BASS BLAST SOUND EXPERIENCE

LG Electronics India has launched its much awaited superlative home theatre system—HT92. With this new model, LG promises to deliver unmatched quality, fantastic design and distinctive features at affordable prices to customers.

Features & USP. HT924 brings with it 1200W RMS and a true bass blast sound experience. It also has

the mechanism of USB ripping, even from FM, thereby opening up avenues for the user to extract favourite music content, even from a radio station. The home theatre includes the popular digital signal processing (DSP) mechanism, along with 12 sound modes, something that, according to the company, no other home theatre system in the same bandwidth offers.

THINNEST DESKTOP

VIEWSONIC'S ALL-IN-ONE PC HAS A 1,366x768 RESOLUTION THAT ALLOWS USERS TO WATCH HD MOVIES AND BROWSE THE INTERNET

ViewSonic Corp, a leading provider of visual display products, has unveiled its first all-in-one PC—VPC100 for the Indian market.

Features & USP. This exquisitely designed all-in-one PC is one of the thinnest desktops available at just 35 mm, with a 16:9 aspect ratio. The PC comes loaded with a 1,366x768 resolution that allows users to watch HD movies, browse the Internet, play games or view documents with crisp details. Powered by Intel's 1.6GHz atom processor and coupled with a 1GB memory,

Price: Rs 31,999

the VPC100 provides plenty of power for day to day desktop computing and entertainment requirements.

It can operate independently, hardwired into a LAN network or wirelessly, in any 802.11b/g WiFi network. The PC also sports advanced multimedia capabilities, with a built-in DVD/RW burner, 2x3-watt speakers, 1.3 megapixel webcam and a mike optimised to video conferencing. Designed for Windows XP, VPC100 is well equipped with four high-speed USB 2.0 ports, while the 4-in-1 card reader allows users to transfer and share photos and files with ease.
