

Embedded Starter Kit

Embedded ARM Starter Kit

Rs. 6,985/-

With Philips LPC2129 μ C, 2 UART, 2 CAN Ports, 4-ch 10-bit ADC, JTAG debugger, Example codes and Case Studies

Embedded Web server

Rs. 6,985/-

Lpc2148 (ARM7) based web server complete source code, USB device controller, 2 UART, JTAG, SD card, Graphical LCD optional

PIC Starter Kit

Rs. 4,985/-

With PIC16F877A μ C, LCD, 7-Seg display, UART, ZIF sockets for 40/28/18 pin 16F and 18F series, Example codes and Case Studies

VLSI Starter Kit

Rs. 8,895/-

100,000 gate Spartan 3E FPGA, VGA, UART, Ethernet Port, JTAG Dongle, Example Codes and Case Studies

THE FULL FLEDGED ARM9 DEVELOPMENT BOARD WITH TOUCHSCREEN DISPLAY

GPU: Samsung S3C2440A (ARM920T), 400MHz, max. 533MHz
RAM: 64MB SDRAM
32nB Bus, 100MHz Clock
Flash: 64MByte NAND Flash, 2MByte Nor Flash with Bios
System Clock: 12MHz Crystal
LCD: 4 wire resistive touch screen interface, 5.7inch Displays
4bit dual scan, 4bit single scan or 8bit single scan display type monochrome, 4 gray levels, 16 gray levels, 256 colors or 4096 colors
Mac: 1024x768
TFT-Display: 1, 2, 4 or 8 bpp palletized color displays, 16 or 24 bpp non-palletized true-color displays
Mac: 1024x768, 64k colors
Interface and Resource:
1 10/100M Ethernet RJ-45 (DM9000)
3 Serial Ports (1 RS232)
1 USB Host
1 USB Device
1 SD-Card interface
1 Audio Output
1 Audio Input
1 Microphone
4 User LEDs
6 User Buttons
1 PWM Buzzer
1 Adjustable Resistance (for ADC testing)
1 I2C EEPROM (24C08)
1 Real Time Clock with Battery (RTC)
1 20pin Camera Interface (2.0mm)
1 10pin JTAG (2.0mm)
Expansion Interface: 1 34pin GPIO (2mm)
1 40pin System Bus (2.0mm)
Power Supply: 5V Connector
Dimension: 110 x 100 mm
OS Support: Linux 2.6
Windows CE 5
Display Module: 3.5" LCD touchscreen display
QT environment for application development
Development GTK support
Complete source code for boot loader and example application programs

Price: ~~Rs. 18,950/-~~
Rs. 18,950/-
(Inclusive of Taxes and Shipping)
Warranty: one Year

RTOS Learners Kit

Rs. 5,985/-

89V51RD2 based kit with Avx-51 RTOS, supports both Round Robin and Priority Based scheduling, inter-task communication etc. Ideal for understanding RTOS concepts.

RFID-ARM Project Kit

Rs. 9,960/-

Ideal for Office / Home Automation, LPC2129 based SBC with integrated RFID module, 10 nos of RFID Tags, Example codes

RFID 8051 Project Board

Rs. 7,960/-

89V51RD2 μ C with 8-Ch ADC, UART, RTC, LCD, External 1K EPROM, 32K RAM, Add-on card with RFID Module, 10 nos. of tags, Example Codes and Case Studies

Low Cost ARM Project Board

Rs. 2,985/-

With Philips LPC2129 μ C, 2 UART, JTAG Debugger, Prototyping area, Port pin Extensions, Example codes and Case Studies

ONLINE / DISTANCE - CERTIFICATION COURSES (Emblitz Varsity Associate Trainee program)

Embedded Systems Design

Rs. 8,760/-

Fully interactive self study course to learn embedded system design from scratch; Kit includes an 8051-based evaluation board, Video tutorial CDs, Software and Documentation.

VLSI Verilog Kit

Rs. 13,780/-

Fully interactive self study course to learn VLSI design using Verilog from scratch; Kit includes the VLSI Starter Kit with Video tutorials, Software and Documentation.

Embedded Linux

Rs. 19,500/-

Fully interactive self study course to learn Embedded Linux from scratch; Kit includes the ARM - based Linux Learner's Kit with Video tutorials, Software and Documentation.

ARM

Rs. 6,800/-

Fully interactive self study course to learn ARM architecture, programming and applications from scratch; Kit includes an LPC2129-based project board, Video tutorial CDs, Software and Documentation with examples

Real Time Operating System

A Hard Real Time OS

Avx is a cost-effective solution to any embedded system requiring a Hard Real Time performance.
Avx designed as a low-cost solution for RTOS in small and medium-scale embedded applications. Avx is fast, efficient, deterministic and complete, with a small footprint, and supports ARM7, ARM9, x86, AVR32, Coldfire and PIC32 architectures. VxWorks and POSIX-compliant API's enable migration from VxWorks and legacy RTOSs. An Eclipse-based IDE is provided for simulation and OGD debugging thereby reducing time to make and helping to make applications bug-free.

Corporate Training

We provide training programs to institutions and corporate organizations, with special emphasis on hands-on sessions and are delivered by experts with R&D background. Courses are conducted in microcontroller programming (8-bit to 32-bit), ARM, VxWorks, Linux, Board Support Package, Device Drivers, etc., and are supplemented with case studies and skills development workshops.
We also conduct 100% Job Oriented 4.5 Months Diploma course on Embedded System Design

Design and Development Services

Design House

With our high-level expertise in cutting edge technologies including Embedded Software Development, Real-time systems, PLC based Factory and Building Automation, RFID solutions, etc., we offer product design and development services and technical consultancy to companies who are interested to out-source whole or a portion of their design jobs. We have developed several Embedded applications for use in areas such as Factory and Building Automation. Write to us at info@emblitz.com for your requirements.

Ordering Information:

- Send MO/ DD/Cheque for the order amount payable at Bangalore, in favour of M/s. Everest Infocom Pvt. Ltd.
- Online Funds Transfer to our Bank A/c No. 06510200011811 of AXIS Bank, Basavewaranagar, Bangalore-560079
- Pay online using VISA/MASTERCARD at www.emblitz.com/catalog

Terms and conditions:

- The kit prices mentioned are inclusive of all taxes and Govt. levies.
- Within India shipping is done through courier free of cost.
- Foreign Customers are requested to visit our website for pricing and for other terms and conditions.
- Normal Delivery within 7 working days from the date of order confirmation.
- Warranty and Technical Support for all kits is provided; conditions apply.
- The kit specifications and prices are subject to change without any prior notice given.
- For more details on terms & conditions visit our website www.emblitz.com.
- All disputes are subject to Bangalore jurisdiction.
