

that we have to memorise the codes of all the colours. The Resistor Value Calculator utility program is a useful and handy tool, with the help of which you can calculate hundreds of resistor values in minutes.

MATLAB program

MATLAB provides a GUI development platform where engineers can develop a very aesthetic graphic interface for their applications. In this project, GUI has been developed in MATLAB

to take advantage of its features. A GUI allows users to perform tasks interactively through controls such as buttons, pop menu, sliders and axes. Within MATLAB, GUI tools enable you to perform tasks such as creating and customising plots (plottools), fitting curves and surfaces (cftool) and analysing and filtering signals (sptool). You can also create custom GUIs for others to use—either by running them in MATLAB or as standalone applications.
